Leadership • Networking • Access

The Texas Hispanic-Serving Institutions Consortium holds conferences annually in the spring in Texas for the State's HSIs. These conferences are great for networking, uncovering funding opportunities, and they provide trends in HIS education.

The National Institute of Food and Agriculture (NIFA) provides leadership and funding for programs that advance agriculture-related sciences. We invest in and support initiatives that ensure the long-term viability of agriculture. NIFA applies an integrated approach to ensure that groundbreaking discoveries in agriculture-related sciences and technologies reach the people who can put them into practice.
